

ACCELERATOR (Pumpkin Peel)

PROTOCOL

For **BEST** results using the Dermodality **ACCELERATOR (Pumpkin Peel)**, we suggest layering a Dermodality **BASE1** peel first followed by the **ACCELERATOR** directly on top.

(See **BASE1+ACCELERATOR** protocol). The **ACCELERATOR** contains a high concentration of Bilberry extract which is a vasodilator.

The **ACCELERATOR** may be used on any other part of the body on its own (back, arms, legs etc.)

1. Secure hair off face.
2. First cleanse with Dermodality cleanser to remove any make-up. (Foaming Cream Cleanser for normal, aging, dry or dehydrated skin / Beta Hydroxy Cleanser for oily or acne skin).
3. Second cleanse with Dermodality (gel-based) Mandelic & Green Tea Cleanser to prepare for peel.
4. Prep skin with Dermodality 50/50 Peel Prep Pads; thoroughly wipe face.
5. Apply petrolatum (or another occlusive of choice) lightly, to any areas of the face that need protection (cuts, abrasions, moles, tattoos, inner lining of nose and corners of mouth etc).
6. Make sure to have a fan and a timer nearby.
7. Measure ½ tablespoon of Dermodality Pumpkin Peel **ACCELERATOR** *You may need more for neck and décolletage.
8. Apply Pumpkin Peel **ACCELERATOR** using a fan brush starting with the thicker areas of the skin first. Forehead, chin, facial perimeter, cheeks, nose, temple and around the eyes. Leave on for 8-10 minutes. *If erythema (blotchy redness) occurs and client is in extreme discomfort remove peel sooner with cool towels/4x4's. *NOTE: you are doing a chemical peel; there will be some sensitivity.
9. Wet fingertips and re-wet the Pumpkin peel in light circular motions for an easier removal process. *Clients may feel some activity at this point.
10. Use cool damp cloths and wet 4x4s to remove the product. *REMOVE COMPLETELY.
11. Tone skin with Dermodality Mandelic Toner to ensure product is removed completely.
12. Option to perform light extractions at this time.
13. Option to apply a Dermodality mask (or any mask) at this time. (Follow directions on mask jar)
Apply; let sit for approx 10 min. Remove with cool towels or 4x4s.
14. Option to apply Dermodality Retinol **POWER** Booster OR skip to step 17.
15. Prep skin once again with Dermodality Prep Pads; Thoroughly wipe face.
16. Apply 2-3 pumps of Retinol **POWER** Booster of choice to treatment areas using gloved fingers.
Press into skin and allow it to absorb for 3-5 minutes before step 17. (Client must wear the booster for at least 6 hrs for the cascade process to occur).
17. Apply Hyaluronic **PRO** and/or Moisture Soothe Plus.
18. Apply Dermodality SunMoist SPF 30.
19. Apply lip balm.
20. Send client home with Dermodality skin-conditioning home care products (Vitamin C: Intense & Vitamin A: Intense are recommended).
