

BASE 2 + Retinol POWER Booster

PROTOCOL

1. Secure hair off face.
2. First cleanse with Dermodality cleanser to remove any make-up. (Foaming Cream Cleanser for normal, aging, dry or dehydrated skin / Beta Hydroxy Cleanser for oily or acne skin).
3. Second cleanse with Dermodality (gel-based) Mandelic & Green Tea Cleanser to prepare for peel.
4. Note: Be sure to have done a mask or any other in-office service PRIOR to proceeding to next steps.
5. Prep skin with Dermodality 50/50 Peel Prep Pads; thoroughly wipe face.
6. Apply petrolatum (or another occlusive of choice) lightly, to any areas of the face that need protection (cuts, abrasions, moles, tattoos, inner lining of nose and corners of mouth etc).
7. Have a fan for client nearby.
8. Measure 2cc (1cc=1/10 tsp) of BASE2 solution into a small glass bowl. *You may need more for neck and decolletage.
9. Apply BASE2 peel with saturated woven gauze starting with the thicker areas of the skin.
10. Proceed in the following order: Forehead, chin, facial perimeter, cheeks, nose, temples and around eyes. *Apply pressure when applying. *NOTE: each time you layer over the same area you are driving the peel in further. Use caution when applying layers.
11. Fan skin for 3-5 minutes watching for the first sign of frost
 - a. If you see frosting anywhere on the face proceed to step 12.
 - b. If a frost does not appear and the client is not experiencing extreme discomfort proceed with the second layer in the same fashion. *We do not recommend more than 3 layers MAX & you must wait 3-5 minutes in between each layer. *You will need more BASE2 solution for each layer.
12. Measure 2-3 pumps of Dermodality Retinol POWER Booster into a glass bowl and apply to the face using a fan brush in gentle strokes. Let it absorb into the skin for 5-10 minutes before moving to Step 13.
13. Apply Dermodality SunMoist SPF 30.
14. Apply Lip Balm.
15. Send client home with post-care instructions and a Dermodality post care kit.
