

A close-up portrait of a woman's face, split vertically down the middle. The left side of her face shows signs of skin issues, including redness, small bumps, and some faint scarring. The right side of her face is smooth, clear, and has a more uniform skin tone. She has blue eyes and her hair is pulled back. The background is dark.

DERMODALITY CHEMICAL PEELS

dermodality
SKIN SOLUTIONS

DERMODALITY PEEL SYSTEM

Our unique hybrid peels are a combination of various acids and individual molecular weights, each with the ability to achieve full depth of penetration within the various layers of the skin, thus targeting multiple conditions at once. When applied by our dermodality-certified professionals, our hybrid peels create customized treatment plans for all fitzpatrick levels and skin conditions. Dermodality peels and home care regimens enable the professional to be in full control of the entire treatment process and end result.

Our peels are designed for the complete restoration of the skin's condition, thus yielding the "dermodality glow"

- ▶ Exfoliate to decongest clogged pores and reduce surface irregularities
- ▶ Reduce the risk of inflammation and hyperpigmentation
- ▶ Remove the top dead layers of skin to lighten, brighten and tighten overall complexion
- ▶ Reduce fine lines at the surface and deep wrinkles underneath by stimulating growth factors for the formation of collagen and elastin
- ▶ Improve overall texture and scarring from acne and other factors

Our unique, corrective chemical peel system is designed for individual customization and is dependent upon the individual's fitzpatrick level. Our intentional process of skin conditioning progressively desensitizes its reaction by utilizing a combination of our BASE1 hybrid peels and our customized prescribed home care regimens. The concentrated blend of tyrosinase inhibitors intended for the stabilization of pigment producing melanin, alongside the nutrient-dense anti-inflammatory formulas, will ultimately allow all fitzpatrick skin types the tolerance of our more intensive in-office treatments when more extreme repair is called for.

Our treatment system includes BASE1 peels, BASE2 peels, ACCELERATOR and Retinol POWER Boosters

ACCELERATOR

NATURAL PUMPKIN & MULTI FRUIT ENZYME 30%

pH 3.2

This award winning multi-fruit enzyme is a fan favorite. Rejuvenate your skin with a zestful blend of glycolic and lactic acid along with the multi-fruit benefits. Bilberry extract is a key player in this medley as it vasodilates the blood vessels and accelerates the BASE1 peel below.

- 30% glycolic and lactic acid blend
- Powerful enzyme
- Mild to medium spice level
- Decongests pores
- Visibly lightens skins surface
- Aids in oxygen flow
- Allows for maximum product penetration
- Assists in cell proliferation
- Accelerates BASE1 peel when layered on top

- Layer over any BASE1 peel for deeper penetration
- Use on other areas of the body alone such as hands, back, legs, arms, feet etc.

INGREDIENTS:

Water, Cucurbita Pepo (Pumpkin) Fruit Extract, Propanediol, Caprylic/Capric Triglycerides, Glycolic acid, Cinnamomum Cassia Bark Extract, Myristica Fragrans (Nutmeg) Extract, Zingiber Officinale (Ginger) Extract, Allspice, Cucurbita Pepo (Pumpkin) extract, Lactic acid, Vaccinium Myrtillus Fruit/Leaf Extract, Xanthan Gum, Bisabolol, Caprylyl Glycol, Galactoarabinan, Sodium Lactate, Sodium Hydroxide, Vaccinium Myrtillus Fruit Extract, Saccharum Officinarum (Sugarcane) Extract, Acer Saccharum (Sugar Maple) Extract, Citrus Aurantium Dulcis (Orange) Fruit Extract, Citrus Limon (Lemon) Fruit Extract, Salix Alba (Willow) Bark Extract, Natural aroma, Phenoxyethanol.

Storage Notes: Keep out of direct sunlight and extreme temperatures

Expiration Date: 12-14 months from purchase date

Treatments per bottle: Approximately 60 per 16oz

Suggested treatment cost: \$80-\$130

BASE1 PEELS

MANDELIC+ HYBRID AHA

pH 3.0

Containing antibacterial, anti-inflammatory and lightening agents, this AHA is the perfect option for all skin types and conditions. For best results layer Dermodality Pumpkin Peel ACCELERATOR on top for deeper penetration of vitamins, nutrients and acid activity.

- For all skin tones and conditions
- Gentle, first-time peel
- Indicating peel
- Anti-inflammatory
- Antibacterial
- Decongests and corrects
- Lightens, brightens, and tightens

- Mandelic+ is a fantastic choice for anyone with oily, acne or sensitive skin types. It is your go-to peel for pretty much all first-time appointments as it will let you know the state or "health" of the moisture barrier
- Can be used on rosacea as long as it's NOT during an active flare up
- Mandelic+ is also used post microdermabrasion and dermaplaning
- Mandelic+ is used during the skin-conditioning process used alone, mixed with Intensive Brightening peel, C: Vitality peel and/or layered underneath the Pumpkin Enzyme ACCELERATOR

INGREDIENTS:

Water, Mandelic Acid, Lactic Acid, Peg-8, Glycerin, Salicylic Acid, Ethyl Alcohol, Dimethyl Imidazolidinone, Sodium Citrate, Hamamelis Virginiana Leaf Extract

Storage notes: Keep out of direct sunlight and extreme temperatures

Expiration date: 2 years from purchase date

Treatments per bottle: Approximately 30 per 1oz

Suggested treatment cost: \$80-\$140

BASE1 PEELS

C: VITALITY HYBRID AHA

pH

Experience renewed vitality, a radiant glow and added hydration with this brightening yet gentle “lunchtime” peel made for all skin types. For best results layer Dermodality Pumpkin Peel ACCELERATOR on top for deeper penetration of vitamins, nutrients and acid activity.

- Gentle exfoliant
- Added hydration
- Little to no irritation
- Lightens skins surface
- For pigment correction and prevention

- C: Vitality contains concentrated vitamins and fruit-driven antioxidants
- Bilberry Extract creates vasodilation and allows for better penetration
- Anti-inflammatory ingredients for minimal irritation
- Used during the skin-conditioning process alone, mixed with Mandelic+ peel, Intensive Brightening peel and/or layered underneath the Pumpkin Enzyme
- ACCELERATOR
- Great option post microdermabrasion and dermaplaning

INGREDIENTS:

Deionized water, Lactic Acid, Glycolic Acid, Aloe Vera Gel, L-Ascorbic Acid, Bilberry, Propylene Glycol, Isothiazolinone, Methyl Isothiazolinone

Storage notes: Keep out of direct sunlight and extreme temperatures

Expiration date: 2 years from purchase date

Treatments per bottle: Approximately 30 per 1oz

Suggested treatment cost: \$80-\$140

BASE1 PEELS

INTENSIVE BRIGHTENING HYBRID AHA **pH 3.0**

Lighten, brighten and tighten surface skin with this powerhouse peel. Packed with AHA's, antioxidants and tyrosinase inhibitors it is your go-to as a lightening agent. For best results layer Dermodality Pumpkin Peel ACCELERATOR on top for deeper penetration of vitamins, nutrients and acid activity.

- Mild exfoliant
- Little to no irritation
- Lightens skins surface
- Vitamin C benefit
- For pigment correction and prevention

- Intensive Brightening is a mild yet powerful exfoliation tool as you notice immediate change to skin tone and texture
- Used during the skin-conditioning process alone, mixed with Mandelic+ peel, C: Vitality peel and/or layered underneath the Pumpkin Enzyme ACCELERATOR
- Great option post microdermabrasion and dermaplaning

INGREDIENTS:

Mandelic Acid, Lactic Acid, Glycolic Acid, Water, Ethyl Alcohol, PEG-8, Sodium Citrate, Ascorbic Acid, Niacinamide, Licorice, Kojic Acid, Dimethyl Imidazolidinone, Ethoxydiglycol, Cucumber, Lemon, Vaccinium Myrtillus Fruit/Leaf Extract

Storage notes: Keep out of direct sunlight and extreme temperatures

Expiration date: 12 months from purchase date

Treatments per bottle: Approximately 30 per 1oz

Suggested treatment cost: \$80-\$140

BASE2 PEELS

BLEMISH20

pH 3.0

Derived from the Willow bark, Salicylic acid is an excellent exfoliator and has the ability to break down sebum, destroy bacteria and minimize comedones.

- For oily skin
- Antibacterial
- Breaks down sebum
- Controls C acnes bacteria
- Decongests follicles
- Aids in extraction process

- Use for oily acne skin after you have conditioned the skin for the appropriate amount of time with BASE1 peels and proper home care
- Can apply multiple layers (3 max per treatment is recommended)
- Can layer with Modified Jessner or Jessner
- Do not spot treat

INGREDIENTS:

Water, PEG-8, Salicylic Acid, Alcohol Denat., Glycerin, Hamamelis Virginiana Leaf Extract

Storage notes: Keep out of direct sunlight and extreme temperatures

Expiration date: 9-12 months from purchase date

Treatments per bottle: Approximately 15 per 1oz

Suggested treatment cost: Suggested \$100-\$125

BASE2 PEELS

MODIFIED JESSNER

pH 1.8

Repair and reduce breakouts, control oil, soften lines and provide a more even, smoother skin texture.

- Ideal for oily skin
- Antibacterial
- Breaks down lipids
- Breaks up corneodesmosomes
- Lightens and tightens

- Use for oily acne skin after you have conditioned the skin for the appropriate amount of time with BASE1 peels and proper home care
- Can apply multiple layers (3 max per treatment is recommended)
- Can layer with Blemish 20 and Jessner
- Do not spot treat

INGREDIENTS:

Ethyl Alcohol, Lactic Acid, Salicylic Acid, Citric Acid

Storage notes: Keep out of direct sunlight and extreme temperatures

Expiration date: 9-12 months from purchase date

Treatments per bottle: Approximately 15 per 1oz

Suggested treatment cost: \$100-\$125

BASE2 PEELS

JESSNER

pH 1.8

- Smooths out fine lines and wrinkles
- Combats C-acnes (acne causing bacteria)
- Reduction in pigment
- Aids in moisture retention
- Helps appearance of scarring
- Antibacterial

- Use for oily acne skin after you have conditioned the skin for the appropriate amount of time with BASE1 peels and proper home care
- Can apply multiple layers (3 max per treatment is recommended)
- Can layer with Modified Jessner or Blemish 20
- Do not spot treat

INGREDIENTS:

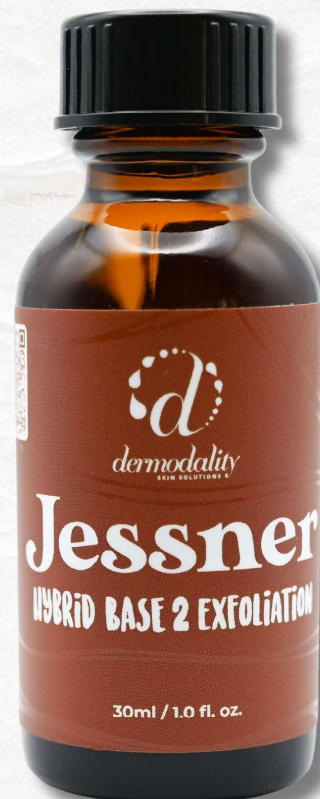

Ethyl Alcohol, Lactic Acid, Salicylic Acid, Resorcinol

Storage notes: Keep out of direct sunlight and extreme temperatures

Expiration date: 9-12 months from purchase date

Treatments per bottle: Approximately 15 per 1oz

Suggested treatment cost: \$130-\$180

BASE2 PEELS

TCA 10 pH 1.2

Lightens, brightens and tightens overall skin tone and can effectively retexturize skin surface. Increased intracellular syntheses. For added peeling benefit, layer Dermodality Retinol POWER Booster peel on top.

- Lighten skin tone
- Removes multiple layers of epidermis
- Initiates collagen & elastin production
- Helps appearance of scarring

- Use on hyperpigmented and aging skin
- Can do multiple layers (3 max per treatment is recommended)
- Can layer with TCA 15
- Do not spot treat

INGREDIENTS:

Water, Trichloroacetic Acid, Propanediol, Alcohol Denat., Glycerin, Hamamelis Virginiana Leaf Extract.

Storage notes: Keep out of direct sunlight and extreme temperatures

Expiration date: 9-12 months from purchase date

Treatments per bottle: Approximately 15 per 1oz

Suggested treatment cost: \$110-\$130

BASE2 PEELS

TCA 15 pH 1.0

Complete complexion correction. Developed to lighten hyperpigmentation, tighten skin, correct acne scarring, refine and smooth texture as well as initiate collagen and elastin production. For added peeling benefit, layer Dermodality Retinol POWER Booster peel on top.

- Lighten skin tone
- Removes multiple layers of epidermis
- Initiates collagen & elastin production
- Helps appearance of scarring

- Use on hyperpigmented and aging skin
- Can do multiple layers (3 max per treatment is recommended)
- Can layer with TCA 10
- Do not spot treat

INGREDIENTS:

Water, Trichloroacetic Acid, Propanediol, Alcohol Denat., Glycerin, Hamamelis Virginiana Leaf Extract

Storage notes: Keep out of direct sunlight and extreme temperatures

Expiration date: 9-12 months from purchase date

Treatments per bottle: Approximately 15 per 1oz

Suggested treatment cost: \$150-200
